SUMMARY

Resourceful Full-Stack Developer with experience in collaborative and autonomous development environments. Proficient in React, TypeScript, Node.js, and SQL, with a strong understanding of agile methodologies like Scrum. Skilled in creating interactive user interfaces and implementing robust server-side logic. Eager to leverage expertise in full-stack development, problem-solving, and clean code practices to contribute to innovative projects and drive technical excellence.

WORK EXPERIENCE

2025 – 2026

Full-Stack Developer FormDocs Project

- Collaborated on the development of a full-stack web application within an agile environment, adhering to Scrum methodology.
- Engaged dynamically within a team of 6 to ensure continuous feature delivery and effective problem-solving.
- Engineered highly interactive and responsive user interfaces utilising React and TypeScript.
- Adhered to clean code practices and employed version control tools (Git/GitHub) crucial for remote workflows.

2025 – 2026

Full-Stack Developer Matcha Garden

- Independently developed a cross-platform application prioritising user experience and performance.
- Implemented robust server-side logic and APIs using Node.js and relational database management (SQL).
- Explored and integrated innovative technologies, including Rust and the Tauri ecosystem.

Web Developer Personal Digital Library

- Developed a web application to track reading history and share literary reviews, with a focus on fantasy and classics.
- Crafted a modern and interactive user interface using React and Vite, optimising for fast loading and performance.

- Integrated custom features for progress tracking and efficient book collection organisation.

Software Engineering & Robotics: Pollution Detection

Polytechnic Institute of Tomar

- Simulated a robotic fish for aquatic pollution detection, employing NVIDIA Isaac Sim.
- Programmed complex algorithms for movement, data analysis, and environmental response using Python and C#.
- Integrated fluid mechanics and numerical data processing within advanced simulation environments.

2025 – 2026

EDUCATION

Bachelor's Degree - Computer Engineering

Polytechnic Institute of Tomar

Postgraduate Degree - Enterprise Management Systems SAP

Polytechnic Institute of Tomar

SKILLS

React	TypeScript
JavaScript	Vite
Node.js	Rust
Python	C#
SQL	Metodologia Scrum
Git / GitHub	Tauri Framework
NVIDIA Isaac Sim	Sistemas SAP ERP
Trabalho Remoto / Ágil
